## Important Information for All Filers

---

**Period Covered by the Return.** This voucher may be filed for the 2013 calendar year or fiscal year beginning in 2013.

A financial institution with a short taxable year (less than 12 months) may file a voucher for the short period. The voucher must be filed during the last month of operation and on or before the end of the short period. See:

- ◆ [Revenue Ruling 24-90-1: Financial Institution Tax – Filing Requirements of Short-Period Tax Returns](#); and
- ◆ [Revenue Ruling 24-91-1: Financial Institution Tax – Average Deposits of Short-Period Tax Returns](#).

**Enter All Amounts as Whole Dollars.** Do not include cents on the voucher or worksheet. Round any amount from 50 cents to 99 cents to the next higher dollar. Round any amount less than 50 cents to the next lower dollar.

**Accounting Methods.** The accounting method required by state and federal regulatory agencies must be used for Nebraska financial institution tax purposes. Income and expenses of a financial institution must be computed according to the requirements of its regulatory agencies.

**Multistate Financial Institutions.** Financial institutions that are subject to tax in more than one state must compute their tax liability based on the amount of average deposits connected with the financial institution's operations in Nebraska. These deposits equal the total deposits accepted at the financial institution's Nebraska offices, plus deposits solicited from Nebraska residents which are accepted at the financial institution's offices outside of Nebraska. The financial institution's limitation amount is computed using the portion of the net financial income that is apportioned to Nebraska through the use of property and payroll factors.
